Answer guidance

Factual anchor: A large storage tank broke in Boston’s North End. Molasses rushed through nearby streets. Twenty-one people died. The disaster harmed workers and neighbors and raised questions about industrial safety. The January 15 disaster involved engineering, business responsibility, and regulation. Its unusual substance should not turn human loss into a joke. Examine records of the tank and the people affected.

Accept accurate main ideas and explanations supported by the text. Vocabulary meanings are in the opening word bank. For picture questions, use the caption and credit below; distinguish what is visible from what is inferred. For comparison, accept a specific connection supported by both readings. Do not require personal accounts of trauma.
