

The Worcester tornado

1953 | Grade 2 · Read & notice

Teacher note: this topic includes loss, violence, discrimination, or criminal allegations. Preview and choose a suitable reading together. No reenactment of harm is needed.

Words to know

warning — a message about possible danger

damage — harm that makes something less safe or useful

recover — regain strength or rebuild after harm

Look closely

Modern topic illustration created for Massachusetts History Explorers. It is not a historical artifact.

Read the story

A powerful tornado struck the Worcester area. Ninety-four people died, and many homes were damaged. Neighbors helped one another recover. Weather experts studied the storm and how warnings could improve.

Think, talk, and show evidence

1. What happened in this reading? Tell one fact.
2. Who or what is this reading mostly about?
3. Choose a word from the word bank. Explain it in your own words.
4. Look at the picture and its caption. What does it help you notice? Is it from the time of the event?

Follow-up reading: A successful kidney transplant

1954

A medical team in Boston performed the first successful human kidney transplant. The donor and recipient were identical twins. The operation became an important step in transplant medicine.

How are the two readings alike or different? Tell a partner one connection. Which event came first?

Teacher guide & source trail

Original classroom adaptation. Suggested reading levels are instructional choices, not standardized readability certifications. Use professional judgment and learner feedback.

ELA practice: RI.2.1: ask and answer questions; RI.2.2: identify a main topic; RI.2.7: use images and words; W.2.2 and SL.2.1: explain and discuss.

These tasks support selected skills in the [Massachusetts 2017 ELA framework](#); they do not establish mastery of an entire standard.

Answer guidance

Factual anchor: A powerful tornado struck the Worcester area. Ninety-four people died, and many homes were damaged. Neighbors helped one another recover. Weather experts studied the storm and how warnings could improve. The June 9 tornado crossed several communities. It is commonly rated F4 on the historical Fujita scale. Modern warning tools differ from those available then; compare information systems carefully.

Accept accurate main ideas and explanations supported by the text. Vocabulary meanings are in the opening word bank. For picture questions, use the caption and credit below; distinguish what is visible from what is inferred. For comparison, accept a specific connection supported by both readings. Do not require personal accounts of trauma.
